## KING BIO

Native Mississippians, James and Natasha both have more than 14 years of experience in their respective fields of education (Natasha) and graphic design and ministry (James). In 2013 they decided to undergo an 18-month transition towards full-time entrepreneurship and homeschool education for their son, James III. After completing the System Mastery Course, James and Natasha published their first co-authored book, *Our Story - A Journey to Purpose*. The release of this book not only set them on the path to produce over 30 published authors, it revealed their purpose as a couple - to be the comprehensive elements of love, marriage and partnership.

After discovering their purpose, James and Natasha invested time and other resources in developing themselves to align with the vision that had been given. Their work produced opportunities to produce a magazine *Love, Marriage & Partnership - the Review*, a VIP Awards program recognizing entrepreneurs and community leaders, speaking engagements domestically and internationally, instructional courses for singles and married couples, nine published books and more.

Their recent and most honored area of service has been a leadership initiative where they promote and develop independent business owners. They currently serve as leaders helping individuals build online businesses.

In all that they do, James and Natasha desire to keep God the center and love people. The byproduct of that desire is to impact, inspire and initiate purpose in the lives of 10 million people while promoting and being evidence of PositiveMississippi.
